Fathima Asna Aslam

PROFILE

I'm an enthusiastic IT student passionate about turning ideas into innovative, user-focused solutions. I apply software engineering best practices like clean code, version control, agile methods, and test-driven development to build efficient systems. With skills in graphic design and UI/UX, I create intuitive, visually engaging interfaces. Always learning, I aim to combine technology and design to make a meaningful impact. Constantly learning and adapting, I'm excited by the opportunity to combine technology and design to make a meaningful impact.

EDUCATION

HND in Computing Software Engineering - (Reading)
Esoft Metro Campus   Sep 2024 – Feb 2026

Diploma in Information Technology
Esoft Metro Campus   Jan 2024 – Dec 2024

Diploma in English
Esoft Metro Campus   Jan 2024 – Aug 2024

Graphic Designing
Studyz Academy   Sep 2024 – Dec 2024

G.C.E A/L physical science stream
KU/Giri Madeena National School   Sep 2021 – Feb 2024

WORK EXPERIENCE

Graphic Designer
INC9000 (Pvt) Ltd   May 2025 – Present

Created posters, logos, and T-shirt designs using Adobe Photoshop, Illustrator, and CorelDRAW. Delivered visually appealing, print-ready graphics aligned with client needs and branding goals.

Teacher AIDE
MASJIDHU THAKWA ACADAMY   Feb 2023 – Dec 2024

Taught Mathematics and ICT, preparing students for Grade 8, 10, and O/L students. Developed engaging lesson plans, reinforced key concepts, and supported student success through personalized guidance.

PROJECTS

Graphic Design

Designed creative visuals including logos, posters, and T-shirt prints, as well as custom graphics for mugs, bottles, and merchandise. Skilled in Adobe Photoshop, Illustrator, and CorelDRAW to produce high-quality, print-ready designs.

Web Projects

Developed responsive and interactive websites using HTML, CSS, JavaScript, and PHP. Projects include dynamic front-end designs and functional back-end systems, with features such as admin panels, user authentication, and data-driven content display.

Desktop Applications

Built Windows-based desktop applications using C# in Visual Studio, connected to Microsoft SQL Server. These systems were designed to streamline data management and improve efficiency in small business operations.

UI/UX Design

Designed wireframes and interactive prototypes using Figma, focusing on user-centered design principles. Projects include conceptual applications for education, transport, services, and productivity tools.

REFEREES

Referees available upon request.
